Ooo ooo ooo ooo
Till we die

We were lost worlds
Searching for love
And wanting what we haven't found
Ooo ooo ooo ooo
Wanting what we haven't found

Wanting what we haven't found
Wanting what we haven't found

Feeling our way
Through space and time
I call for you and hear no sound
Ooo ooo ooo ooo
I call for you and hear no sound

Every move that I made just to find you I
Let my whole world go extinct in the fire like
Feeling the heat when we crash and collide
There's love in our bones yeah

Every step that I sync to your soul I
Make it on home to your heart where we live by
Letting our love exist on the timeline
You and I

Till we die
Till we die
Till we die
Till we die
And Fossilize

And Fossilize
And Fossilize

Now that I'm yours
Our love will live
Forever through out history
Ooo ooo ooo ooo
Forever through out history

Every move that I made just to find you I
Let my whole world go extinct in the fire like
Feeling the heat when we crash and collide
There's love in our bones yeah

Every step that I sync to your soul I
Make it on home to your heart where we live by
Letting our love exist on the timeline
You and I

Till we die
Till we die
Till we die
Till we die
And Fossilize

We're runnin and runnin and runnin to survive
We're runnin and runnin and runnin to survive
We're runnin and runnin and runnin to survive Oh oh
We're runnin and runnin and runnin to survive

Till we die
Till we die
Till we die
Till we die

Till we die
Till we die
Till we die
Till we die

And Fossilize
