Incase you didn't know I'm not all alone
Even though I blew you off once or twice
Incase you couldn't see I'm not too busy
You just couldn't handle it
You tell yourself

Poor sad girl so caught up in her dreams
Wish her well hope she can succeed

Well you don't have to worry
You don't
You don't have to worry
You don't
You don't have to worry

Incase you're wondering how I've been doing
I am doing fine with out your advice
Incase things never change I will be ok
But I know what you're thinking
When you think of me

Poor sad girl so caught up in her dreams
Wish her well hope she can succeed

Well you don't have to worry
You don't
You don't have to worry
You don't
You don't have to worry

Me and my baby (baby)
Got no regrets to swallow
How you doing lately (lately)
'Cause I'm moving on moving up and you're not coming with me

Well you don't have to worry
You don't
You don't have to worry (Wish her well hope she can seucceed)
You don't
You don't have to worry
You don't
You don't have to worry
You don't
You don't have to worry
You don't
You don't have to worry
You don't
You don't have to worry
